

Practical GMP in Cleanrooms - Level 2

NOTE: ENGLISH VERSION (No subtitles are available)

An Online Cleanroom Training Course
- Whenever and (or) wherever it suits you!

What is "Practical GMP in Cleanrooms - Level 2"?

"Practical GMP in Cleanrooms - Level 2" is an on-demand online training course, that provides a personal course certificate upon completion of the course.

Course objective

"Practical GMP in Cleanrooms - Level 2" is intended to be used as part of the annual training for everyone working in connection with GMP and cleanrooms. The purpose of the course is to provide more in-depth knowledge of how the European GMP (Good Manufacturing Practice) affects practical work in a cleanroom, especially during the manufacture of various types of sterile pharmaceutical products.

Course target group

The course is aimed at personnel with previous experience of cleanrooms and cleanroom work within GMP operations, or who have completed the course "Practical GMP in Cleanrooms - Level 1". This course is primarily suitable for operators, supervisors, cleaning personnel, service- and maintenance personnel, as well as personnel engaged in environmental monitoring.

Course length

The total course length is approximately 100 minutes, consisting of 74 minutes of video modules (Parts), followed by multiple-choice questions after each Part, and finally a short survey.

Payment and time to assign/complete the course

You pay for the course licence(s)* by card** or request to pay by invoice. You will get access to the course licence(s) directly after approved payment and you have 90 days to assign the course license(s) to the course participant(s), after which the course participant(s) has/have additional 90 days to complete the course.

Question?

Please contact us at sales@mcleaned.com

The courses are exclusively sold to legal entities - please see our Terms and conditions, and FAQ for more information.

* 1 course license per course participant and course | ** VISA with Verified by VISA, or MasterCard with MasterCard SecureCode

- Turn for course content

How it works:

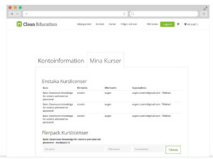

Step 1

Create an account,
select the number of
course licenses you need,
and pay by card
or request to pay by invoice

Step 2

Get instant access
to the course(s) and
complete them when it suits you

Step 3

Download the
personal course certificate
after completing the course

Practical GMP in Cleanrooms - Level 2

Course content:

Part 1: Introduction – Cleanrooms and GMP | 11 min

- What are the different GMP grades and what differentiates them?
- What are the different GMP grades used for?

Part 2: Cleanliness demands according to GMP | 15 min

- Particles and viable microorganisms in Annex 1
- Annex 1 versus cleanroom standard ISO 14644 - 1
- Microbiological cleanliness requirements according to Annex 1

Part 3: Sterile products – Terminal sterilisation | 9 min

- What is terminal sterilisation, and when is it used?
- Diagrammatic summary of terminal sterilisation

Part 4: Sterile products – Aseptic manufacturing | 10 min

- What is Aseptic handling, and when is it used?
- Diagrammatic summary of Aseptic Manufacturing

Part 5: Clean Zones | 17 min

- Why are clean zones used?
- Clean zones to protect products
- Clean zones to protect personnel
- Isolators and RABS (Restricted Access Barrier System)

Part 6: Working in Clean Zones | 12 min

- The function of the different clean zones
- Procedures in clean zones
- Things to consider when working in clean zones
